PROJECTS

project_01 - Tools4Trade — E-Commerce Platform

stack - Shopify, HTML, CSS, JavaScript, Bootstrap, Responsive Design

live - https://tools4trade.co.uk/

Summary

- A large-scale Shopify e-commerce platform for UK tradespeople and DIY customers, offering power tools, hand tools, accessories, fixings, workwear, and construction equipment from leading brands.
- Built responsive e-commerce interfaces and product-focused shopping experiences across desktop, tablet, and mobile devices.
- Developed and customized Shopify theme components, product/category layouts, navigation, promotional sections, and reusable UI elements to improve usability and support a large product catalogue.
- Implemented responsive layouts and interactive front-end functionality using HTML, CSS, JavaScript, and Shopify Liquid, ensuring consistent performance across different screen sizes and devices.
- Optimized product discovery through structured categories, search-oriented navigation, promotional sections, and intuitive shopping flows for a large-scale tool catalogue.

project_02 - Bidvino — Wine E-Commerce Platform

stack - Shopify, HTML, CSS, JavaScript, Bootstrap
live - https://bidvino.com/

Summary

- A premium online wine e-commerce platform showcasing wines from family-owned wineries, with product discovery, category-based browsing, online shopping, rewards, and wine-related content.
- Developed responsive and user-friendly e-commerce interfaces for browsing wine products, categories, wineries, accessories, promotions, and featured collections.
- Implemented interactive front-end components using JavaScript, including navigation, product interactions, search-oriented UI, and shopping-related interface elements.
- Designed responsive layouts using HTML5 and CSS3 to provide a consistent shopping experience across desktop, tablet, and mobile devices.
- Customized reusable sections for product categories, promotional campaigns, winery collections, gift ideas, rewards, and content/blog sections to improve product discovery and user engagement.

project_03 - Gadgetly Mega Store — E-Commerce Platform

stack - HTML5, CSS3, Bootstrap, jquery
live - https://gadgetly-meagestore-shopify.netlify.app/

Summary

- A responsive multi-category e-commerce website for browsing, discovering, and shopping across electronics, gadgets, home appliances, gaming products, and other consumer products.
- Developed a responsive mega-store interface featuring product search, category-based navigation, product listings, deal-of-the-day sections, best sellers, discounts, and add-to-cart shopping flows.
- Implemented a structured e-commerce experience with multiple product categories including cameras, laptops and computers, gaming, headphones, speakers, mobile phones and tablets, kitchen products, furniture, and kids' products, with responsive layouts for different screen sizes.
